The Virginia Citizens Redistricting Commission shall reapportion the Commonwealth into electoral districts in accordance with this section in the year 2021 and every ten years thereafter. Every electoral district shall be ~~composed of contiguous and compact territory and shall be so constituted as to give, as nearly as is practicable, representation in proportion to the population of the district.~~ The General Assembly shall reapportion the Commonwealth

~~into electoral districts in accordance with this section in the year 2011 and every ten years thereafter~~  
constituted so as to adhere to the following standards and criteria:

(1) Legislative and congressional districts shall have a total population as nearly equal as practicable to the ideal population for such districts. Deviations from equal population may be permitted to achieve other redistricting criteria specified in this subsection, but in no case shall a congressional district have a total population that varies by more than one half of one percent from the ideal congressional district population nor shall a legislative district for the Senate or the House of Delegates have a total population that varies by more than five percent from the ideal legislative district population for a Senate or House of Delegates district, respectively.

(2) Legislative and congressional districts shall not be drawn to abridge or deny the ability of substantial racial or ethnic minority communities to elect representatives of their choice.

(4) Legislative and congressional districts shall be drawn to respect existing political boundaries of counties, cities, and towns. To the extent practicable, and except in cases where the political subdivision is larger than an electoral district, each political subdivision shall be wholly contained within a single electoral district. (5) Legislative and congressional districts shall be composed of compact and contiguous territory. Districts divided by water may be deemed contiguous but connections by water running downstream or upriver are not permissible. Districts shall not have irregular or contorted perimeters, unless justified by one or more of the redistricting criteria specified in this subsection, including adherence to existing political boundaries or natural geographic boundaries.
